## CONDITIONS OF SALE

1. *The highest Bidder to be the Buyer, and if any dispute arise between two or more Bidders, the Lot so in dispute shall be immediately put up again and re-sold.*

2. *The Auctioneer reserves the right to reject any bid which is merely a nominal or fractional advance, and therefore, in his judgment, likely to affect the Sale injuriously.*

3. *The Purchasers to give their names and addresses, and to pay down a cash deposit, or the whole of the Purchase-money, if required, in default of which the Lot or Lots so purchased to be immediately put up again and re-sold.*

4. *The Lots to be taken away at the Buyer's Expense and Risk within twenty-four hours from the conclusion of the Sale, unless otherwise specified by the Auctioneer or Managers previous to or at the time of Sale, and the remainder of the Purchase-money to be absolutely paid, or otherwise settled for to the satisfaction of the Auctioneer, on or before delivery; in default of which the undersigned will not hold themselves responsible if the Lots be lost, stolen, damaged, or destroyed, but they will be left at the sole risk of the purchaser.*

5. *While the undersigned will not hold themselves responsible for the correctness of the description, genuineness, or authenticity of, or any fault or defect in, any Lot, and make no Warranty whatever, they will, upon receiving previous to date of Sale trustworthy expert opinion in writing that any Painting or other Work of Art is not what it is represented to be, use every effort on their part to furnish proof to the contrary; failing in which, the object or objects in question will be sold subject to the declaration of the aforesaid expert, he being liable to the Owner or Owners thereof for damage or injury occasioned thereby.*

6. *To prevent inaccuracy in delivery, and inconvenience in the settlement of the Purchases, no Lot can, on any account, be removed during the Sale.*

7. *Upon failure to comply with the above conditions, the money deposited in part payment shall be forfeited; all Lots uncleared within one day from conclusion of Sale (unless otherwise specified as above) shall be re-sold by public or private sale, without further notice, and the deficiency (if any) attending such re-sale shall be made good by the defaulter at this Sale, together with all charges attending the same. This Condition is without prejudice to the right of the Auctioneer to enforce the contract made at this Sale, without such re-sale, if he thinks fit.*

8. *The Undersigned are in no manner connected with the business of the cartage or packing and shipping of purchases, and although they will afford to purchasers every facility for employing careful carriers and packers, they will not hold themselves responsible for the acts and charges of the parties engaged for such services.*

## 183 PLATE

*R. F. Fridenburg*

Canton china; Chinese, Eighteenth Century. An example of the celebrated "Cincinnati China," "which not only marks the first introduction into America of the patriotic emblem as a decoration on porcelain, but possesses the distinction of having once belonged to General Washington" (Halsey, p. 297). Tradition for many years had it that the set to which this plate originally belonged was presented to Washington by the members of the Order of the Cincinnati. Mr. Halsey, however, has very definitely proved that the set was brought from China by Captain Samuel Shaw, of Boston, who was the first secretary of the Order of the Cincinnati. On one of his voyages to Canton, Captain Shaw had this set decorated by a Chinese artist with the insignia of the Society. The china was brought over in 1785, and presented to Washington by Captain Shaw. The set was mentioned in the will of Martha Washington, and was left, at the death of her grandson, George Washington Parke Custis, to his daughter, Mary Custis, wife of Gen. Robert E. Lee. Some sixty pieces of the set were, at the outbreak of the war, and at Mr. Lee's departure from Arlington, seized with other Washington relics by the federal forces, and are now in the National Museum at Washington. The plate is of Canton china with a deep border of blue on the white ground, and with the Cincinnati insignia painted in colors in the centre.

Size,  $9\frac{1}{2}$  inches.

Pseudo-Lowestoft ware; late Eighteenth Century. Twisted handle and floral decoration in colors on white ground. A good specimen of so-called Lowestoft ware. The picture is inscribed "To the Honorable the Society of the Cincinnati." This is the original painting by John Eckstein, from which he engraved the well-known stipple print of this subject, No. 968 in the Catalogue of engravings. It was probably painted soon after Washington's death. On canvas. In gilt frame.

Size, 47½ inches by 30½ inches.

C. W. Munn

French; Nineteenth Century. Portrait in biscuit ware, white on blue ground, of George Washington. This was one of the imitations of Wedgwood's jasper ware, made at the Sèvres factory in the early part of the Nineteenth Century. This particular piece seems to belong to the Second Royal Epoch of the factory, namely, from 1814 to 1824. In contemporary ormolu frame.

Mark, "Sèvres," imp. Double L, p. red. Diameter, 9 inches.

NOTE.—The impressed Sèvres mark is so rare that it was probably only used on these Wedgwood imitations as a suggestion of Wedgwood's own impressed mark.

255 OIL PAINTING

R. F. Fridenburg

Early Nineteenth Century. Portrait in oil on canvas of George Washington, by an unknown painter (probably

Clarke, who flourished about 1800). This was evidently painted about the time of Washington's death, most likely as the foundation of a popular engraving. Arlent Edwards in 1900, and forms the frontispiece of "Charles Henry Hart's Engraved Portraits of Washington." A copy of Mr. Arlent's mezzotint accompanies the painting. In gilt frame and black glass mount. Size, 10 inches by 8 inches.

NOTE.—*These marks are unusual and interesting. It is only very occasionally that a piece bearing Flaxman's initial is met with.
